FACILITIES

- LIFT** : Lifts or elevators are essential for multi-story buildings to facilitate easy vertical movement for end users. They enhance accessibility, especially for elderly people or those with mobility issues.
- CAR PARKING** : Parking facilities accommodate commercial vehicles as well as provide designated spaces for visitors. Properly marked parking areas, both covered and open, help manage vehicle flow and ensure adequate parking for all users.
- SECURITY GUARD** : Security guards are employed to ensure the safety and security of the premises. They monitor entry and exit points, patrol the area, and may respond to emergencies or security breaches.
- CCTV CAMERA** : Closed-circuit television cameras are used for surveillance purposes. They help in monitoring activities within the premises, deter crime, and provide evidence in case of incidents or unlawful activities.
- WATER TANK** : Water tanks are installed to store water for daily usage. They ensure a continuous water supply, especially in areas with intermittent water availability or during emergencies like water shortages or maintenance work.
- FIRE SAFETY** : Fire safety measures include fire extinguishers, smoke detectors, fire alarms, emergency exits, and evacuation plans. These are crucial for preventing, detecting, and managing fire emergencies to minimize damage and ensure the safety of commercial.

SPECIFICATIONS

- FLOORING** : Premium Vitrified Tiles in Shop Premium Parking Tiles in Common Area.
- PAINTS** : Internal Shop walls finished with wall putty & Color. Premium Color / Texture Color for exteriors. Paint Finish in Common Areas.
- ELECTRIFICATION** : Concealed ISI Copper wiring with Modular Switch. Distribution based with MCB or ELCB for maximum Safety.
